

*TRADEMARK

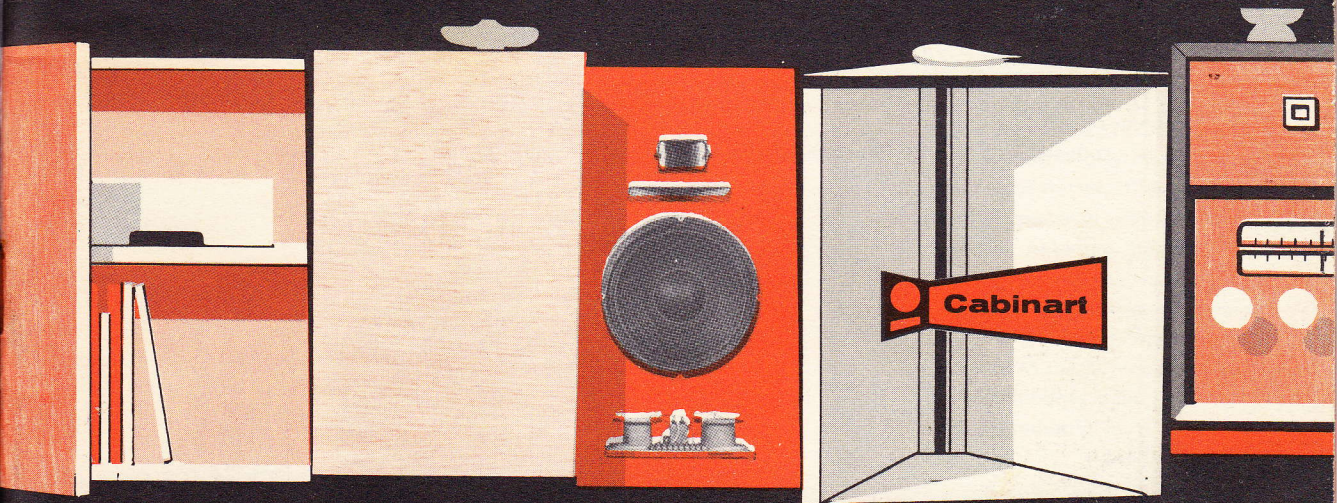

the pioneers in radio furniture

The installation of a high fidelity music reproducing system is more important than its selection. Cabinart, as the industry's largest furniture manufacturer, designs and builds solely for the hi-fi field. Each design is an engineer's answer to an individual hi-fi equipment storage problem. Each cabinet, properly used, is a designer's expression of the elements of good furniture design.

CABINART is a division of
G & H Wood Products Co., Inc.
99 North 11th Street, Brooklyn, N. Y.

**the finest
woods and
finishes . . .**

Cabinart's FINE WOOD finishes are applied to only the most select hardwood veneers. Close quality control combined with Cabinart's complex multi-step finishing operation produces mahogany, walnut, blond mahogany (korina) and ebony finishes, which are superior to the accepted standards of wood finishes in the cabinet industry.
