BASS and GUITAR

150 250 500

THE NEW SOUND FROM KUSTOM IS A TOTALLY NEW EXPERIENCE

KUSTOM is newly engineered from the ground up, with the same quality and solid state reliability KUSTOM has maintained through the years — and all backed up by the famous KUSTOM lifetime guarantee.

KUSTOM has perfected the utmost in versatility through the sophisticated design of its control capabilities. The results are the sounds today's music demands.

KUSTOM offers a great new selection in 3 model series — 150, 250 and 500 for both bass and guitar amplification. You can choose the model and control features that best suit your sound preference.

You have complete control over YOUR sound. Shape your own sine wave, and add and subtract special effects at will. Create long-lasting sustain, distort as much as you want, or keep it pure — you are the master.

Never has there been such a complete choice of sound, power, color and control combinations. We invite you to see your nearest authorized KUSTOM dealer and hear the advantages for yourself.

The No. 4 power unit gives you complete control. Individual effects can be used individually or in any combination, allowing total versatility to tailor the sound that's you.

BASS 150

The 150 series are star performers in an easy-to-handle size that takes strain out of transportation. Here is portability and performance with plenty of rich bass power that's all KUSTOM. Two channels, four inputs, 150 watts.

BASS MODEL 2-12B-1
Two 12" Special Design bass speakers

BASS 250

The 250 bass models give you a choice of reflex or folded horn cabinets. The reflex cabinets, with front ports and closed backs, create the thundering lows to please any bass man. The "W" design

(folded horn) cabinets create those deep contemporary overtones with tremendous projection capabilities that only this kind of cabinet design can produce. Two channels, four inputs, 250 watts.

BASS MODEL 2-15B-1
Two 15" Special Design bass speakers

BASS MODEL 3-15B-1
Three 15" Special Design bass speakers

BASS HORN MODEL 1-18B-1
One 18" heavy duty special design speaker
"W" design (folded horn) cabinet

BASS 250

This is the top of the line to give you that professional performance used by the stars.

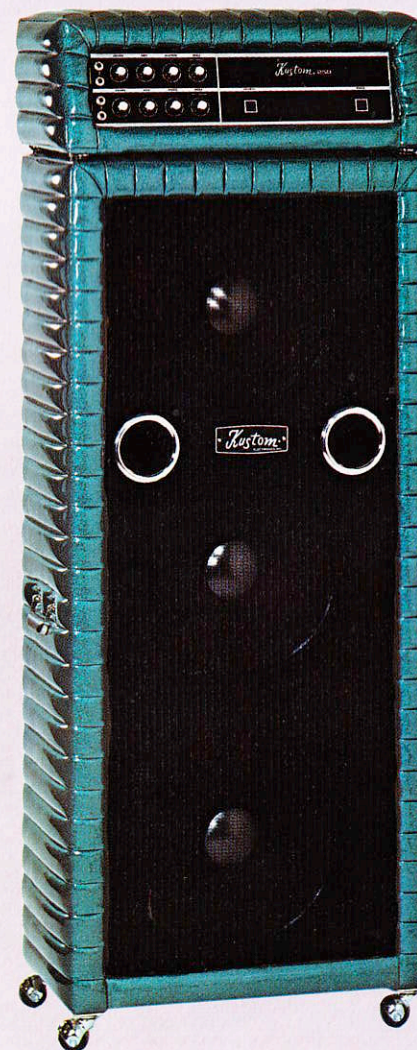

Choose from either J.B. Lansing or Altec Lansing speakers for extra ordinary performance.

Extremely stable solid state circuitry results in hi fi quality and minimal distortion. KUSTOM is America's No. 1 selling bass amplifier.

BASS MODEL 2-D140F-1
Two 15" J.B. Lansing D140f bass speakers

BASS MODEL 2-15AB-1
Two 15" Altec Lansing 421A bass speakers.

BASS MODEL 3-D140F-1
Three 15" J.B. Lansing D140f bass speakers.

BASS MODEL 3-15AB-1
Three 15" Altec Lansing 421A bass speakers.

BASS 500

The 500 bass series are the sound giants. They're the biggest and best combination of power, performance and complete control yet. One speaker cabinet contains its own amplifier, and they combine to

give you 500 watts. Any number of additional cabinets may be added to increase your sound requirements without affecting balance or quality of the total system.

BASS MODEL 4-15B-1
Four 15" heavy duty bass speakers w/power module

BASS MODEL 6-15B-1
Six 15" heavy duty bass speakers w/power module

BASS HORN MODEL 2-18B-1
Two 18" heavy duty special design bass speakers w/power module

BASS 500

These are the Bass systems that give you the supreme authority in power, quality and performance. Choose from either J.B. Lansing or Altec Lansing speakers for that exceptional performance demanded by the professionals.

Kustom Solid State Circuity is so stable and dependable that KUSTOM gives you a LIFETIME GUARANTEE.

BASS MODEL 4-D140F-1
Four 15" J.B. Lansing D140f bass speakers
w/power module.

BASS MODEL 4-15AB-1
Four 15" Altec Lansing 421A bass
speakers w/power module.

BASS MODEL 6-D140F-1
Six 15" J.B. Lansing D140f bass speakers
w/power module.

BASS MODEL 6-15AB-1
Six 15" Altec Lansing 421A bass speakers
w/power module.

KUSTOM'S NEW GUITAR SERIES IS TOTALLY NEW

Inside, everything is new for the lead guitarist with solid state reliability and KUSTOM'S lifetime guarantee. Never has there been such a guitar system with such versatility and control! Never has a musician had such flexibility in creating sound exactly the way he wants it.

You can choose the kind of control you want from the No. 1, No. 2 or No. 4 power units.

The No. 4 power unit gives you the most complete control system yet. Special Fuzz feature is built in with its own volume control that is unaffected by the master volume. You can select that just-right distortion degree for your special fuzz effect. Six position Selective Boost, with individual tone and effect controls features a special "W" position to create a built in WahWah. Reverb, with tone and intensity, is also individually controlled. Tremolo and Vibrato, with separate speed control can be adjusted separately or used in combination to produce a wide variety of effects.

In addition to volume, bass and treble controls, channel No. 1 features the KUSTOM exclusive Selectone that lets you choose one of 3 distinct sound ranges to play in. It's like having 3 amps in one.

Channel No. 2 features volume, bass, middle and treble controls, allowing you to have complete control over these frequency ranges — so you can actually shape the sound and emphasis you desire. Whatever your music, whatever your sound, KUSTOM'S new series of guitar systems has everything working for you.

GUITAR 150

Completely new inside and out, the 150 series is power and performance in a size that makes it easy to handle. Here is top performance in a choice of two power units. Two channels, four inputs, 150 watts.
