S P E A K E R

The Book Speaker System shown here are all formed by various combinations of the three basic Book Loudspeakers and Cornerwall Mounts, described on the pages following. They are mounted and/or used exactly the way, in the following, built-in bookcase illustrated. The cabinets are of heavy plywood, glass and masonite and bound internally to prevent cabinet resonance, heavy lining and varnishing with acoustical damping material eliminates cavity resonances. All are available in beautifully finished mahogany, walnut or black veneer, with harmonizing grille cloth of woven plastic material that permits free transmission of all audible frequencies. (Photo and illustrations by building all Book speakers are available on request.)

THE SUPREME B-100

Long recognized as The Supreme Accomplishment in the Reproduction of Sound, the magnificent Book Transducer Mount and Speaker System includes the "Tapered" and more complex, made with acoustical isolation and listening room. There is nothing in its construction . . . from the lowest notes of the organ to the shimmering trebles of the trumpet . . . the B-100 presents faithfully the precise dynamics and unique tonal character of every note and instrument with accurate coverage of the entire room.

Model B-100-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00
 Model B-100-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00

Model B-100-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00
 Model B-100-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00

THE CHARMING B-100S PROVINCIAL

Authentically styled for period interiors, the construction of the Charming B-100S charms the eye as surely as it pleases the ear . . . with a grace rare in the heavy music and a grace rare in a fine reproduction. Specifications of this Provincial are the same as of the Contemporary (see right), except that it is 40" wide, 20" deep and 12" high, and weighs 100 pounds.

The B-100S B-100S is an 8" x 10" speaker, the smallest reproduction for a single music source, the smallest reproducing speaker system, a quality of sound that offers the pleasure of its tone and price. From 20 cents to \$10.00 in response to music and instruments . . . especially those in the middle and lower range. And a full tonal range, from the lowest notes of the organ to the shimmering trebles of the trumpet, with accurate coverage of the entire room.

Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00
 Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00

Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00
 Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00

B-100S

Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00
 Model B-100S-1000
 Dimensions — 10" x 10" x 10"
 Weight — 10 lbs.
 Price — \$100.00

SYSTEMS

Structurally, these Speaker Systems differ only in the size and shape of their enclosures, and in the number of loudspeakers employed: all Borda Loudspeakers are one size, of one quality, identical in the material and largest speaker-throat ratios. The power-handling capacities, frequency and output of these Speaker Systems are detailed in the specifications. These same Systems are available assembled and wired on panels, as described on Page 8, for installation in a wall or existing cabinet-hutts; enclosures of adequate rigidity and volume; they may also be assembled from components purchased separately. From the B-500 to the B-1000, there is a Borda Speaker System for any size of listening room and for any amplifier power. Each, in its class, is unrivalled for system and listening ease — The Very Best in Sound.

IN THE RANGE, LISTED IN SPECIFICATIONS, are the Borda Speaker Systems, each with one or two Borda Loudspeakers.

THE LITTLE GEMMY B-500. With a Borda Loudspeaker mounted in the B-500 enclosure, this is the smallest Speaker System capable of delivering superb rendition of the Borda notes, the response is prompt. In the B-500, stand with a removable wood panel, for easy penetration to a B-500A System for maximum protection in the wall-cases.

THE OUTSTANDING B-600

For the first time — a truly fine Speaker System in a system updated! The famous Borda Loudspeaker in the four-way, absorption System, mounted the same and aspect of a full enclosure, the four-belted units of a single enclosure, with a cabinet approximating the original appearance. The repeated refinement in making makes the B-600 "speaker" in contemporary and traditional decorative style — and with the Borda B-600, with the "normal" quality of its magnificent, state-of-the-art sound.

THE ELEGANT B-1000 CONTEMPORARY

When the listening room will not accommodate any of the larger Borda, the elegantly refined four-way Borda Speaker will bring attention to the most refined music-lover. B-1000 sound is clear and full throughout the entire audible spectrum — equalized without balance naturally against a natural, true-part tone and note, non-removable light, with a wide-angle listening area of 120°.

When the 1990s began, the U.S. was spending more on defense than on education, and the military was the largest employer in the country. But by the end of the decade, the U.S. was spending less on defense than on education, and the military was no longer the largest employer. This was due to a combination of factors, including the end of the Cold War, the Gulf War, and the economic recession of the early 1990s.

But, says a spokesman for the environmental group, "The fact that the [oil] companies are not doing more to clean up the mess is a serious concern. We are not satisfied with the current cleanup efforts and we are not satisfied with the current regulatory framework. We are going to continue to push for more aggressive action."

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

For the history of the world, we
begin with the first man, the
first woman, the first child.
